User Guide

Version 1.0

Nada Corp.

0 Nada Loop, Silicon Honey, 00000

First edition. There will not be a second one,
because there is nothing to correct.

Printed on nothing. Read on anything.

This page intentionally left blank.

01

Before you begin

Nothing is required. Continue.

You do not need an account, a cable, a network or a reason. If you are holding a phone, you already meet every requirement in this manual.

02

What is in the box

There is no box.

The box is sold separately. See Accessories, page 24.

03

Setting up

There is no setup.

This page intentionally left blank.

04

The button

It is in the middle of the screen.

Press it with one finger. Two fingers also work, and produce the same result.

05

What happens next

Nothing. This is correct.

This page intentionally left blank.

06

Notifications

They tell you nothing, on time.

Notifications can be turned off. They will then tell you nothing, silently.

07

The World of Nada

Everyone else is doing nothing too.

The figure is an estimate. So is everything else on that screen.

08

Achievements

Ten of them. All useless.

This page intentionally left blank.

09

The mentorship

Four minutes. A certificate at the end.

The certificate states that you learned nothing. It is accurate and it is yours to share.

10**Accessories**

Sold separately.

Cloth, charger, adapter, box, manual and NadaCare+. The manual is this one, and it is free.

11

Cleaning

Use the Nada Cloth. Either side.

This page intentionally left blank.

12

Troubleshooting

If nothing happens, it is working.

If something happens, close the app and tell us immediately. That is not supposed to be possible.

13

Safety information

Do not press while operating heavy machinery.

Actually, go ahead. Nothing will happen either way.

14

Warranty

Covered for nothing, for life.

This page intentionally left blank.

15

Technical specifications

One button. Zero functions.

The full sheet is on the website, and it is longer than this chapter.

16

Regulatory information

This product complies with nothing.

No authority has reviewed it, and none has been asked to.
